7. Committee Comments (This item limited to announcements or topics/issues proposed for future workshops/agendas)

According to Bob Adams we are still functioning under the old bye-laws of the Committee. They were never changed. The past changes had never been made by the Town.

The Town website, which is considered official, still list the old bye-laws.

According to the website, our Committee has not less than five members. Since there are several issues at stake, including numbers of members this is confusing between what has been approved and what has not been.

ITEM # SUBJECT Minutes

01 March 2019

Issues concerning actual membership of the Committee is problematic at this time because of the bye-laws as posted.

We must have an updated version from the Town outlining especially membership issues at this time.

Revision of members at future meetings. A meeting may be needed concerning posting the members and bye-laws. Arnold Knightly keeps the webpage current.

“Minimum of five” should be retained, but dropping “maximum of seven” Committee members. Five members and two alternates.

John will contact Knightly to see what needs to be done. Review and discussion at the next meeting. Discussion of any changes must be approved by the County.

It was mentioned that several have expressed interest in membership in the Committee.

Flyer needs to be posted on the Town and Nye County webpages on Earth Day
